KING EDWARD IS LOST OF TENANTS ON HIS BIRTHDAY

Sixty-fifth Anniversary at Sandringham and With-out-Pomp.

[SPECIAL TO THE GAZETTE.]
London, Nov. 9.—At Sandringham, the charming little Norfolk estate where the happiest days of his life have been passed and from which neither the stateliness of Windsor Castle nor the charms of Buckingham Palace have been able to woo him, King Edward today celebrated his sixty-fifth birthday, surrounded by a happy family party. Congratulations were poured in from all parts of the world, but these, sincerely felt though they were, did not give his Majesty any more pleasure than it did to receive a little deputation of his tenants who called to congratulate him upon his anniversary.

King Edward is enjoying good health, and naturally he is not overburdened by the burden of his position. During the past year he has not been very busy. The changes that have taken place on the throne of England during the past year leave him among the oldest of the monarchs of Europe. King Oscar of Sweden, King George of Romania and Leopold of Belgium are his seniors. All rulers, with the exception of one or two of the minor states, are younger than King Edward. President Fallieres, the president of France, is the son of King Edward by just three days, having been born Nov. 6, 1841.

INSTALL LORD MAYOR WITH TIME-HONORED CEREMONIES

People Of London Place Sir William Treloar, "Children's Alderman," In Highest Official Office.

[SPECIAL TO THE GAZETTE.]
London, Nov. 9.—With all the glitter and pageantry that have marked the ceremony for centuries past, Sir William Treloar, known as the "Children's Alderman," was today installed as Lord Mayor of London, succeeding Sir Walter Vaughan Morgan. The old established custom showed little sign of becoming obsolete, and owing to the popularity of the new Lord Mayor and some novel features in the street parade the occasion was the most interesting of recent years.

The chief feature of the procession was the representation in costume of seven centuries of the civic life of the city of London. In the person of the Lord Mayor and his officers, of each century, the pageant was rendered additionally attractive by the fact that the various groups were mounted on horseback, which gave all the spectators a good view of the ancient civic state dress.

Such historic Lord Mayors as Fitz Alyn and Dick Whittington were included, but it was only after a long debate that the committee finally decided to include John Wilkes in the pageant. Wilkes, who was Lord Mayor in 1774, sat in parliament for Aylesbury and also Middlesex. His expulsion from parliament, and the stormy scenes in which he was the central figure are matters of history. The first time he was elected Lord Mayor the aldermen rejected him, a fact which led to a riot at the Guildhall. He ultimately served the office, and spent \$40,000 of his own money during the year of his mayoralty, in which the hospitalities were on a scale of great magnificence.

Out of special compliment to the new Lord Mayor's long connection with the crippled children's movement, the committee included in the procession a huge car, carrying a score of boys and girls, selected by the Ragged School union, and carrying banners representative of the numerous philanthropic departments of this well-known institution.

Military Display a Feature.
The procession started from the Guildhall at 10 o'clock. Along the route the usual flags and bunting were displayed. The decorations in front of the Guildhall were of the usual lavish description. The 1st King's Dragoon Guards furnished the escort to the new Lord Mayor, and several line regiments also marched in the procession. The new executive, with the retiring Lord Mayor, rode in the picturesque state carriage, which was drawn by eight cream-colored horses with outriders and postillions in gorgeous livery. The entire route

SODALITY BANQUET
ELABORATE AFFAIR

One Hundred Young Ladies Participated—Lady Foresters' Card Party—Surprise on Rev. Mary Kimball.
One hundred young ladies, all gowned in white participated in the first annual banquet of the Young Ladies' Sodality of St. Patrick's church at the Hotel Myers last evening. Red carnations and smilex in profusion decorated the festal board and handsome menu-cards containing the program of the evening and the names of the members of the organization were laid at each place. At eight o'clock a delicious repast was served, music being discoursed by the Myers Opera-house orchestra led by George Gray, and afterwards Miss Rose Connell, as toastmistress, welcomed the guests and introduced Miss Ethel Crowley, who rendered a violin solo in a very pleasing manner. The formal address of welcome was delivered by Miss Mamie Bohan and there followed two very enjoyable vocal numbers by L. P. Luby of Rockford, accompanied on the piano by Frank Connors, and a duet and encore by Miss M. Ludden and Roy Carter to the piano accompaniment of Miss Peterson. Rev. Fr. P. J. Carroll of Watertown spoke at first in a humorous vein of the embarrassment one whose labors were devoted entirely to young men might be supposed to experience in facing several scores of young ladies, and then dwelt at some length on the home and the duty of the true woman thereto. A duet by Miss Maggie Joyce and Mrs. O. Pyper and a solo by Miss Genevieve Barron followed, some very entertaining and inspiring remarks by Rev. Fr. John Naughton of Madison were followed by a vocal selection by Miss Josephine O'Hara and a general review of the Sodality organization by Miss Nellie Hayes. Besides the guests mentioned several of the local clergy, including Dean E. M. McGinnity, were present.
Lady Foresters' Card Party.
At Central hall last evening a happy throng, numbering nearly three hundred, participated in a card party and dance given under the auspices of the Lady Foresters' Court No. 175. After several hours had been devoted to the game of clinch and the first honors had been carried off by Miss Rose Riley, tempting refreshments were served in the dining room on the second floor. Dancing followed, the Carter & Benkert orchestra playing until one o'clock.
Surprise for Rev. Mary Kimball.
Rev. Mary Kimball's sixty-second birthday anniversary, occurring yesterday, was remembered by twenty-seven friends who repaired to her home on South Jackson street at seven o'clock last evening, unannounced but carrying hamper well-filled with tempting viands. Two large cakes with candles were placed at the center of the table. Six ministers were among the guests, one of them being Rev. North, pastor of the Methodist church at Evansville.

SENATOR WYLIE HAS
SCOOPED THE STATE

Member of the University Examining Committee Points Out the Weakness of the Whole Report.
[SPECIAL TO THE GAZETTE.]
Madison, Wis., Nov. 9.—We are being jumped upon for "kneeling the university," said Senator George Wylie, chairman of the university investigating committee, here today. He referred to the criticisms of certain members of the university faculty because a number of things in the report of the committee recently made to Governor Davidson.
"The newspapers all gave the parts of the report in which we found fault, but the conclusion of the whole business has never been printed," he declared. "The fact is you've all been scooped," and he pulled a complete report of the committee out of an inside pocket and pointed out, after the voluminous financial and statistical part of the document, where it had been hitherto undiscovered, this paragraph, after which followed the signatures of the four investigators:
"Conclusion: The state of Wisconsin is justly proud of its university. It stands for the highest ideals and economic and practical effort. In its faculty are men of wide fame, whose reputation in the realm of thought attracts students from every quarter of the globe. The success that has attended its labors in bringing the most practical sciences into the services of the people is most gratifying, as it is profitable to the state. The man who does brain work and the man who does hand work, the theorist and the practical man, each and every one is today profiting by the investigations, experiments and the practical problems that have been undertaken and given a logical interpretation by the university. During the last decade its growth has been surprisingly rapid and the expense of maintenance correspondingly great. The methods of administering the affairs of a small institution will not altogether apply to a large. The latter demands closer oversight and more minute division of responsibility. To the failure to make methods of administration keep pace with growth is due most of the defects discovered by your committee, and it is for the purpose of rectifying these defects and thereby strengthening this great institution in the estimation of the people as well as in its proper work as a university that the foregoing recommendations are made."

Traveled All Over the World, But Not Successful Until He Reached Janesville.
Sergeant Smith, who is remembered as having been one of the first to join the Rough Riders, was in town yesterday, visiting old friends for the first time in many years. He said that it was odd, but that all his travels, he had never found a good cigar until he went into People's Drug Co.'s drug store yesterday, where he bought a "Wadsworth Bros." "Chico." Sergeant Smith has smoked Porto Rican cigars, Cuban perfectos, and Manila cheroots; but from now on, says he, he will have nothing but the "Chico," as it is a good, clean cigar, with Long Havana filler, smoking with a firm ash and a regular 25c fragrance.
People's Drug Co. have just secured the local agency for the "Chico," and want all the smokers of Janesville to try them and see if Sergeant Smith is not a good judge of a cigar.
Wadsworth Bros. Chicos are also for sale at King's Pharmacy.

SKIDOO PROBLEM

A coin collector had an accumulation of pennies. He told his son he would make him a present of the entire lot if he would put them in boxes, the same number in each box.
There was an odd number of pennies so that if he put an equal number in each of five boxes there would be one penny left over; in a like manner he figured on 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 and 22 boxes, but in every case if he put an equal number in each box there would be one (only one) penny left over. The son gave it up and told his father he thought it impossible to perform the feat. His father replied: "SKIDOO—23 for you." The son then put the entire lot of pennies in 23 boxes, the same number in each box.
To make the problem plain: The entire number of pennies was a number, which if divided by any number from 2 to 22 inclusive there will be a remainder of one (only one) and if divided by 23 there will be no remainder.

500 new pennies will be given to the person who sends in the most skillfully worded correct solution to the problem. 23 pennies will be given to the five other contestants whose solutions are considered by the judges to be the next most ingenious. Skidoo pins will be given to the other contestants whose solutions are considered unusually cleverly worded out.
The "Skidoo" fever has caught, in fact it is growing hot. Answers to the problem are coming in thick and fast. Figures from a few cents up into the septillions are given as solutions. What do you think is the correct answer? Send answers as often and as many of them as you please. Write on one side of the paper only in sending your answer and if sealed and mailed use 2c postage.

Another Batch of "Skidoo" Answers

Johnnie Takes the Skidoo.
"John," said his father one morning, "here is a bag of pennies and a lot of boxes which I want you to arrange for me. It is time to see if you have learned any arithmetic this term. There is an odd number of coins and I want you to put them in boxes, an equal number in each box." Johnnie struggled with those boxes and pennies all the morning and there was always an odd penny left over. Finally, when he had tried 23 boxes he gave up and told his father it couldn't be done. When the father exclaimed "Skidoo! 23 for you," John's little sister spoke up: "Papa, may I have the pennies if I can do the trick?" And upon being told that she might, she said: "If Johnnie wasn't a quitter he would be the owner of 529 pennies, as I am, for if I put 23 pennies in each of 23 boxes I can solve the problem." Her father smiled and said, "Yes, Mary, 529 pennies for you, and Johnnie takes the Skidoo."

Found An Answer.
Janesville, Wis., Nov. 7, 1906.
Dear Puzzle Editor: I have read your "Skidoo Problem" and I have found an answer. The number of pennies altogether is 28,358,585,057,601, and divided by 23 equals 1,224,286,437,287. If divided by all number from 2 to 22, inclusive, will leave 1 for a remainder each time. Hoping to hear from you soon, I remain, yours truly,

Good Big Boxes.
Janesville, Wis., Nov. 9, 1906.
Dear Puzzle Editor: My solution to the skidoo problem is: 28,358,585,057,600, which is a common multiple for the numbers 2 to 22 inclusive. To this I annexed 1 which made it 28,358,585,057,601. This when divided by 23 equals 1,224,286,437,381 pennies in each box.
Yours truly,
FRANK F. SHULBER.

Must Have Been 529.
Janesville, Wis., Nov. 9, 1906.
To Puzzle Editor: I think I have solved your Skidoo problem. I took 23x23, which is 529 and divided by 23. I therefore got an answer of 23. So there must have been 529 pennies.
Yours truly,

Mr. Editor—Dear Sir: Skidoo 23 cents for you. That Skidoo Problem cannot be solved. It is just a joke. From a GAZETTE READER.

Happiness in a Tablet

Perfect Health for Every One Procured at Small Cost.
How many times have you sat down at your meals absolutely disgusted at the thought or sight of anything to eat?
How many times have you felt a gnawing, unsatisfied, still-hungry feeling in your stomach, even after you were through eating?
How many times have you felt that "lump of lead" on your stomach after eating, whether your meal was well cooked or not?
And how many times have you suffered a whole lot of other things from your stomach that you couldn't explain, but that made you grouchy, miserable, out-of-sorts and generally sour on everybody and everything?
It is safe to say you couldn't tell you don't keep track of these things, of course, but you know you've suffered them. You probably have had them for so long that they've become a habit with you and you have come to the conclusion that your fate is to suffer them indefinitely and perhaps forever.
And so men, much like horses, standing unhit by the itching post, think they're tied, and so their habit makes them prisoners.
But no one need have dyspepsia, nor indigestion, nor loss of appetite, nor heartburn, nausea, eructations, bad memory, loss of vim and vigor and the happiness that comes from a healthy stomach and a good appetite if he will only leave his old itching post and tie himself to a new one, one that will hold him to health, joy, ambition and a clear mind, and memory, and the sunshine that goes with them.
That indeed is Heaven! And you can get it in a little tablet already prepared for the purpose. In Stuart's Dyspepsia Tablets, those little cherubs of health and delight found in thousands of homes today. Listen to one of the many testimonials from these precious little tablets will digest for you 3,000 grains of food.
This relieves your stomach of the work of digesting until your stomach can get strong and healthy again. Your stomach has been overworked and abused. It's fagged out. It needs a rest.
Let Stuart's Dyspepsia Tablets do the work of your stomach. You will be surprised how fine you'll feel after eating, and how lusciously good everything will taste to you. That's because the Tablets are thoroughly digesting the food which your stomach couldn't digest before.
Have these tablets on your dining table, and take one or two after every meal without fail. Then you will realize as you have before, that the human stomach decides for every man whether he will go forward or backward—and besides, you'll forget you ever had a stomach to torment you.

DIETZ LOSES IN A
POLITICAL BATTLE

Frank L. McNamara, Given Endorsement of Sawyer County in Face of Opposition.
The result of John F. Dietz' war at the polls in Sawyer county has been ascertained and Dietz' candidate for district attorney, Sam J. Williams, is defeated by his opponent, the present district attorney, Frank L. McNamara, son of H. L. McNamara of this city, by forty votes. Frank McNamara graduated from the Janesville High school with the '96 class. Dietz won at the primaries and McNamara was endorsed by the democrats. Dietzism was the main issue in Sawyer county. Williams stated that people unfriendly to Dietz were opposed to his candidacy. The supporters of McNamara claimed their candidate would bring about Dietz' arrest and discourage lawlessness in the county. Williams maintained he was for giving Dietz a fair deal and McNamara held it a square deal to Wisconsin to have Dietz tried for the charges now against him. William Dietz, the Cameron man's brother, worked enthusiastically for Williams, while John J. Dietz made a lively campaign in the rural districts of the county. The sentiment in that McNamara, now knowing positively the sentiment of Sawyer county, is in favor of Dietz' capture, will use every possible effort to bring him to justice forthwith.

Object to Tipping.
The liverymen of Richmond, Va., are making much complaint against the evil of tipping their drivers. They say that whenever a driver receives a tip, he proceeds to spend it for drinks, causing him to fail to do his duty.

You come nearer to making a mountain out of a mole hill through the tiny 25c 3 line 3 time classified Gazette advertisement than by any means known. It's just like this: the fact that you have something or other to sell or buy or some want or desire exchange may be in which you must have public aid. Not a want or desire but that amounts to more times over than the little insignificant 25c piece. A big deal pushed through simply because here is available a handy means of talking directly to all the people in Janesville and Rock county. Telephone if you can't bring or send the ad.

TRADING PUBLIC MEN
"The Treason of the Senate" is still being exploited in Hearst's magazine, by a member of the muck-rake staff. The prominent men of both parties are under the ban of criticism, and, if so disposed, the reader might readily conclude that the upper house of congress is composed of the worst element in the land.

Much of this rot is on a par with the attack made on Senator Spooner by Lincoln Steffens, when he visited Wisconsin two years ago. The deplorable feature of the whole thing is, that intelligent people read it and are more or less influenced by it.

Public servants, whether of high or low degree, are selected, as a rule, because of honesty and ability. While it is true that many men in public life are office-seekers, it is also true that the class of good men available for any office is extremely limited.

This fact is brought forcibly to mind in every municipal campaign, when it is next to impossible to find representative men, who are willing to serve the city in any official capacity.

The demands made upon a legislator, whether of the state or nation, are greater, and the pay so insignificant as to offer no inducements from a financial standpoint.

As a result, but few successful business men aspire to office. They have no ambition for fame, or a political career. This is why the professions are so largely represented in public life, and the fact that the representation is so able and wholesome speaks well for the professions.

It is a rare thing to find a representative, elected by the people to serve them, who is dishonest. When such a man is discovered, the fact is heralded with a blare of trumpets. The same publicity is given to the bank defaulter, but that does not brand the banking business, nor brand every man, as a knave, connected with it.

Ninety-five per cent of the business of the country is done on faith. The money used, as a circulating medium, is for convenience, but the great block of capital is confidence. When this is weakened or destroyed, disaster and depression follows.

The honesty of the men engaged in various lines of business is not effected, but sources of revenue and income are cut off. Labor is without employment, and capital is idle.

The loss of confidence is the greatest misfortune that can come to a nation, and the causes which contribute to it, deserve the censure which they always receive, and both men and parties are held accountable.

What is true in the world of finance and commerce is equally true in the realm of morals and character. The people elect good men, to serve them in positions of trust and responsibility, and the service rendered is generally satisfactory until there comes along an era of fanatical reform, when the "treason of the senate" and the treason of almost every man in public life is exploited by a little coterie of muck-rake writers, who have nothing to lose.

The yellow publications which handle this class of slander have no regard for either reputation or character, and the clientele, to which they appeal, is influenced by it, because it appears in cold type and masquerades under the cloak of honesty.

It is much easier to tear down than to build up, and our national weakness today is in the disposition to tear down and destroy.

Men in public life are assailed by penny-liners, and their record of honesty and faithful service goes down before the blast, and counts for nothing.

Every corporation is regarded as a device of the devil, and every man with money as an emissary of his satanic majesty.

Class is arrayed against class, and the seeds of discord are sowed and cultivated by designing hands.

Many things are being done under the guise of reform that will not bear close inspection, and one of the most conspicuous is the trading of character.

This nation was founded on faith. It owes existence and perpetuity to the sublime confidence which has always characterized its citizens. Freedom, in its broadest sense, and liberty without license is the heritage so richly enjoyed.

The men and the influences which

are disturbing it today, causing unrest and discontent, are the worst enemies that the nation has ever encountered, and unless they are speedily and permanently silenced results will be disastrous.

It is a good time to have faith in God and faith in humanity. The world is better than it seems.

The Chicago Tribune recently received a check for \$5,000, the reward offered for the defaulting banker, Paul O. Stensland. The check was immediately turned over to the receiver of the defunct bank, for the benefit of creditors. The Tribune spent \$5,000 in securing Stensland and bringing him back to this country, but it is worth the price in advertising.

The Milwaukee Journal is never happy without a worry coming. The paper is very much exercised just now about the future of Mr. Connor, the newly elected lieutenant governor, and offers him a column of gratuitous advice. The republican party is fortunate in having at its disposal a faithful guardian, so noted for disinterested energy.

The Journal and American office in New York was moved into other quarters a year ago or more. The price charged by the contractors was \$1494. After unsuccessful efforts to collect their claim, they have finally brought suit. The Hearst papers are said to be collection proof.

Hearst was the means of giving San Francisco the labor leader, Smith, for mayor, and no city in the land has suffered more from labor oppression. The unions of the coast city now repudiate him, because he turned against them soon after Smith's election.

Young Patterson, the millionaire socialist of Chicago, has started a paper which he promises to publish for two weeks and longer if properly encouraged. He ought to form an alliance with Upton Sinclair of "Jungle" fame. The two freaks would make a good team.

With no more citadels to conquer in Wisconsin, the junior senator will now turn his attention to the important task of reforming the United States senate. What would become of the nation if deprived of the Badger state Moses?

Hearst says that he will continue to fight for the people. What a philanthropist he is?

The prohibitionists are congratulating themselves that they voted for principles.

The democratic party in Milwaukee was lost in the shuffle.

It takes a Johnson or an Olson to win in Minnesota. The name means more than the party.

PRESS COMMENT

Each Side Had Look-in.
Madison Democrat: Whether you are a republican or a democrat, there is still hope that all is not lost.

Too Gallant to Down Nick.
Exchange: Nicholas Longworth landed all right. The voters felt that they could not disappoint Alice.

He's Shelled—For the Present.
Chicago News: Tammany's object may have been to get Mr. Hearst out of the way. If so, it seems to have succeeded.

Expectations Unfulfilled.
Will Griffin in Milwaukee Sentinel: Francis McGovern epitaphs will be returned if contributors will send stamped and addressed envelope.

Let's See His Real Face.
Chicago Tribune: Now that he cannot possibly be accused of doing it for political effect, will Mr. Hughes kindly shave off his beard?

Entertained But Didn't Convince.
Exchange: Mr. Bryan will be interested in following his speechmaking trail and noting the effect of his eloquence on the voters, if he can.

Half-breedism Not Yet Extinct.
Madison Democrat: The defeat of Congressman Babcock for re-election is some evidence that the half-breed is still abroad in the land.

The Knife Simon Saw.
Beloit News: You may fool a few of your readers, Mr. Free Press, but you can't deceive Simon Smith. He saw the knife sticking in your boot.

New Name For Taft.
Philadelphia Inquirer: Secretary Taft's identical letter to the three Ohio factions, which pleased them all, suggests that he might well be renamed "Secretary Taft."

An Intangible Defendant.
Exchange: "Is Hearst Hearst?" asks Lincoln Steffens with his usual profundity. If Mr. Steffens will undertake to sue Hearst he will discover that he is somebody else.

Rubbing It In.
Beloit News: Davidson's vote in Beloit was 914, Simon Smith's 771. The combined efforts of the Free Press and Mr. Luthers to send a democrat to the legislature was rather puerile.

Ingratitude of Voters.
Milwaukee Sentinel: Let Mr. Babcock's constituents candidly consider his congressional course as it stands, on the record, and then consider whether they have treated him or themselves fairly.

True Enough—If—
Ohio Stat Journal: We are assured that Amundson's discovery of the northwest passage is the most remarkable event in American history. True enough, if it stays open.

Hits Our Choicest Luxury.
Topeka Journal: It is said that the pure food law will stop the manufacture of gelatin from the hoofs of the cattle to great extent. Then what, we rise to ask, are we to do for pure fruit jellies in the future?

Want Ads bring results.

DR. PRICE'S Cream Baking Powder

Pure, Wholesome, Reliable

Made from cream of tartar derived solely from grapes, the most delicious and healthful of all fruit acids.

Its use is a guarantee of perfect food and a protection against the ills that follow the use of alum, alum-phosphate and other low grade powders.

The mixtures called baking powders that sell for ten or twenty-five cents a pound, or a cent an ounce, are all alike, made from alum and costing less than three cents a pound.

EXPLANATORY, NOT APOLOGISTIC.

Milwaukee Free Press: "There is nothing else in this world like a clear conscience." The Chicago Examiner has one. It says that it has tried to present the issues of the campaign fairly, and that while at times its language has been strong, "the issues demanded it."

TWENTY-THREE FOR THOSE WHO MAKE GOOD REPLES

Puzzle Editor of the Gazette Is Kept Busy by the Answers.

Solutions to the Gazette Skidoo 23 puzzle are coming in every day in goodly numbers, and the puzzle editor is busy going over them all carefully. He finds many contestants have given the problem and the conditions careful consideration and their solutions are, therefore, carefully worded; while others have not given enough time to it. These participants have sent hurried answers without regard to skill in wording, etc. The Skidoo problem requires thought to solve correctly, it is a plain matter of arithmetic and can be worked out. It is not a joke as some of those who have forwarded letters to the puzzle editor assert. Give careful thought to it and in answering write plainly on one side of the paper only. Have you seen the box of bright new pennies at the People's Drug Co.'s store?

NOTED ART CRITIC TO LECTURE HERE

J. W. Moran of Chicago Will Deliver a Series of Six Afternoon Talks at Library Hall Next Week.

J. W. Moran, member of the international art jury which gave the medals of award at the St. Louis exposition and the man who wrote up the art galleries in the St. Louis Globe-Democrat during the progress of the fair, will deliver a series of six lectures at Library Hall, commencing at three o'clock each afternoon of next week. The talks are said to be given in a manner entirely original and not followed by any other known art critic. They will be commenced with the tendencies of modern art as revealed by the pictures at the St. Louis fair and comparisons of American, British, Scandinavian, Dutch, and German art. Hints as to how to study nature in order to fit one to be a judge of art and a discussion of the true origin of purple and blue shadows in nature, and various other kindred topics will be discussed. Mr. Moran is a member of the University of Chicago faculty and is a friend of many famous painters and knows their works thoroughly. He comes here under the auspices of the Janesville Art League.

Hugh Squires, son of Manager William Squires, returned from Chicago last evening and will resume his work as chauffeur at the Pierson garage.

The Apollo Club

The press comments on the artists who are to appear at the Myers Grand next Tuesday night insure a most notable event. Here are samples of dozens:

"John B. Miller possesses a tenor voice of such purity, steadiness, clearness and sweetness that his singing of the 'Miserere' brought the tremendous audience to its feet in wonder."

"Mabel Sharp Herdies' tones are brilliant and telling, with great freedom and a sustained flow. She has one of the most serviceable voices among the younger singers of today."

Her singing with the Chicago Orchestra to the crowd that filled the Auditorium was admirable."

"Mr. Beard sang with all those qualities of temperament and enthusiasm that have won him so many friends in Chicago during the past season. He is splendidly endowed by nature and has perfect control of his voice."

"His voice, which may be called a basso-baritone, is clear and colorful and under splendid control. He is a pronounced success."

"Miss Harrison is an exceptionally good singer, possessing a contralto voice of ample range and power, is admirably schooled and sings with great musical understanding."

100 LATE TO CLASSIFY

Albaster, clear skin, soft, supple, white hands secured by using Bath skin cream and complexion powder—25c.

Mac's "Beloved Sugar Beet."

Madison Democrat: The Elkhorn Independent gets interesting occasionally. Here is one of its latest successes.

"When Max Jeffries raised his clenched fist and his voice two or three years ago, and said that the clamor for railroad rate legislation was mere buncombe and the voice of anarchy, we almost believed him. Last week he appeared before the rate commissioners at Madison and pleaded for the reduction of an unfair rate on his beloved sugar beet, all of which goes to show that things are always what we make 'em look like—or something different."

SUDDEN DEATH OF MISS MARY VAN KIRK

Well-Known Janesville Lady Succumbed to Pneumonia at Los Angeles Shortly After Six Last Night.

Miss Mary Van Kirk, who was one of the members of the Janesville party which departed for California on October 29, died of pneumonia at Los Angeles shortly after six o'clock last evening. The message bearing the sad tidings reached here during the night, but was not delivered to her brother, C. N. Van Kirk, until seven o'clock this morning. He was not wholly unprepared for the shock as a prior dispatch which came just before three o'clock yesterday afternoon stated that she was dying. Up to that time, however, local relatives had received no intimations that she was even ill, her last letter, written at Salt Lake City a week ago today, conveying the impression that she was in good health and spirits at that time. For several years past Miss Van Kirk had spent the winters in the west, visiting part of the time with her brother, Walter D. Van Kirk, who lives in Pasadena and occasionally with Fred A. Van Kirk of Portland, Oregon, another brother. It was in California, some seasons ago that she met William Painsch of San Pedro. Their betrothal followed and the wedding was to have taken place almost immediately after her arrival in Los Angeles last Sunday.

The deceased was possessed of those qualities which endeared her to a legion of friends and the news of her passing will bring the deepest sorrow to many hearts. Mr. Van Kirk has wired to have the remains brought to Janesville for burial, but has as yet received no reply.

RAILWAY MEN CLASH OVER DERAILMENT

North-Western Switch-Engine Given Derail by St. Paul Operator at Rock River Tower.

The Chicago & North-Western railway company's switch-engine number 737, manned by Engineer A. L. Talmadge, Fireman Blay and Switchman Duffin, ran through the derail at the St. Paul crossing on the south belt line this morning. Though the locomotive was derailed but not damaged, being pulled back onto the tracks with the use of frogs, those aboard are congratulating themselves on escaping without injury. Several of the North-Western men allege that the operator at the Rock River tower, who is an employee of the St. Paul company and has charge of the interlocking plant at this crossing, gave the switch-engine crew the target; that the engineer took the brakes from the engine and started down the hill with six heavy cars loaded with beet, and then that they were given the derailing. A St. Paul train having whistled for the crossing, it was too late to prevent the accident and the brakes on the switch-engine did not bring it to a stop until it was off the tracks. It is alleged by others that Griffin and the operator, William Joyce, engaged in a heated argument.

SELF INTEREST FAIR STORE.

Our bank is not only safe but it is kept safe by the careful vigilance of the active management. Most banks have good men as officers or directors but it frequently happens that the very men on whom the public depends for safe management do not hold enough stock to have a vital personal interest in the affairs of the bank. There is no interest like self-interest and one of the greatest safeguards that can be thrown around a bank and that which is commonly overlooked is the personal acquisition of large holdings of the bank's stock by the individual officers and directors. Our officers and directors own two-thirds of the stock in this bank.

THREE FACTS For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensations in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

RHEUMATISM

AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condition of the system leaves the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the blood. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism gets possession of the system, and life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be remembered that relief from such treatment is only temporary, because the trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation, and permanently cures this painful disease. S. S. S. is the only safe treatment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free.

Had Plurality But Not Majority.

Oshkosh Northwestern: Of course this will be claimed as an endorsement for McGovern by the friends of the latter, but a study of the figures apparently fails to justify this claim. Out of a total vote cast in that county of nearly 55,000, the number of votes given to Mr. McGovern was less than 16,000, or considerably less than one-third the whole number. While, therefore, he was successful in his contest for re-election, it was evidently due to entirely the fact that the total vote was so badly split up between the four leading candidates, including himself, that he managed to slip in by a bare margin of scarcely a hundred, and even at that his independent candidacy very nearly succeeded in electing a social democrat.

CUBAN LIBERALS SEEK PREFERENCE

DISSATISFIED WITH DISTRIBUTION OF OFFICES.

ASK PLACES IN SERVICE

Contend that Moderates Are Given Posts of Importance and Appoint Committee to Call on Governor for Plums.

Havana, Nov. 9.—The growing sentiment of dissatisfaction among liberals in consequence of lack of success of their efforts to induce Gov. Magoon to dismiss moderates from important posts in the insular administration, replacing them with liberals, crystallized Thursday night at a secret meeting of the liberal committee on appointments.

There are at present Pino Guerra, Alfredo Zayas, Jose Manuel Gomez, Jose J. Monteagudo, Gen. Castillo, Rafael Duany, and representatives from all the provinces.

Special objection was made to the reappointment of a police captain named Reguera, a moderate, who recently has been reinstated in office, and to the appointments of various minor officials in the customs house. The reappointment of Reguera was particularly obnoxious to the liberals.

Liberals Want Office.

Up to the present time the leaders of the liberal party have protested that they did not seek office and were entirely willing to abide by the selections made by Gov. Magoon.

The meeting Thursday night, however, is a result of pressure brought to bear by applicants for office, and it was decided to appoint a committee to call on the governor, express the party's dissatisfaction with recent appointments and make a strong appeal for the recognition of liberal aspirants to various important posts.

Hitherto Gov. Magoon has shown no haste in making appointments, filling only such as seemed particularly necessary. It has been expected for some time past that the patience of liberals soon would be exhausted as time went by and they were not given offices, and that steps would be taken to bring pressure to bear on the governor.

Mayor Is Dismissed.

Gov. Aleman, of Santa Clara, has dismissed Garcia Vilela from the post of mayor of Cienfuegos. The ex-mayor was a very strong moderate, and he was bitterly opposed by the liberals on account of his alleged complicity in the murder of Villendas in Cienfuegos last year. It is believed that this removal will tend to the restoration of tranquillity in that vicinity, where there has been much discontent and considerable disorder.

Terrorists Murder and Rob.

Warsaw, Nov. 9.—Upon the arrival of a train over the Vienna-Warsaw railroad at Rogow station Thursday a band of terrorists surrounded the station and threw a bomb at the mail van. Several soldiers were killed or wounded. The terrorists then robbed the mail.

Explorer Sails for Home.

New York, Nov. 9.—Capt. Roald Amundsen and five others of the Norwegian exploring party, who for the last three years have been seeking the northwest passage and the magnetic pole, sailed Thursday for home on the steamer Hogg, Olav.

Want \$1,000,000 for Missions.

Syracuse, N. Y., Nov. 9.—The board of church extension of the Methodist Episcopal church Thursday decided to raise \$1,000,000 next year. Of this amount \$750,000 will be used for home missions work, and \$250,000 for church extension.

Filipinos for Mexico.

Mexico City, Nov. 9.—Paul Wentworth Lineberger, district judge of the Philippine islands, arrived here Thursday from Manila to determine as to the feasibility of establishing colonies of Filipinos along the coast of Mexico.

Prohibit Gambling in Panama.

Panama, Nov. 9.—The national assembly Thursday unanimously approved a bill prohibiting gambling in the republic. It will now be signed by President Amador, and gambling on the Isthmus will become a thing of the past. Gambling is already absolutely prohibited in the canal zone.

Wades to His Death.

Monticello, Minn., Nov. 9.—Theodore Mochell, aged 65, a wealthy farmer near here, left his home Thursday morning and deliberately waded out into the Mississippi river to a point beyond his depth and was drowned.

Milwaukee Man Dies Suddenly.

Bainbridge, Ga., Nov. 9.—James O'Donnell, a Milwaukee contractor, who came here to bid upon a projected sewerage system, died suddenly of heart failure while at supper Thursday night.

Box Factory Burned.

Louisville, Nov. 9.—The Bell & Coggeshall planing and box factory was destroyed by fire Thursday. Loss, \$75,000. The 200 employees escaped.

Workmen Shot Down.

Lodz, Russian Poland, Nov. 9.—Seven nationalist workmen were shot down here Thursday by socialists. The local situation is most serious.

Carelessness somewhere.

Gladys—Mamma can't see anybody to-day, she's upstairs with the new baby. You see, they sent her a girl when she'd ordered a boy, and she's so disappointed she's sick—Puck.

CHANDLER DEFEATS BRUCE

HEARST CANDIDATE ELECTED LIEUTENANT GOVERNOR.

Democrats Capture All Minor Positions in New York State by Small Pluralities.

New York, Nov. 9.—With the official vote of but three counties missing, Lewis Stuyvesant Chandler apparently is elected lieutenant governor on the Democratic-Independence League ticket by a plurality approximating 1,700 votes over M. Linn Bruce, Republican.

To arrive at these figures Bruce's probable pluralities in the counties of Essex, Ontario and Niagara are based on the vote for the Republican gubernatorial candidate. Fulton county is also missing; excepting a statement of Bruce's plurality over Chandler.

While slight changes may be made in the returns from several counties, it is not believed they will materially reduce Chandler's lead, but, on the contrary, may increase it.

It appears that all the other candidates on the Democratic state ticket are elected by small pluralities.

The Republican campaign managers decided Thursday to make applications in the supreme court of the several counties in this vicinity for orders compelling the production in

court of an "void and protested" ballot. These will be counted in court. It is expected that Herbert Parsons, chairman of the Republican county committee, will have charge of this matter for New York city. In every county where a count of these ballots is deemed necessary the county chairman will make like application to the supreme court.

Fail to Elect Governor.

Concord, N. H., Nov. 9.—Unofficial returns in New Hampshire indicate that the voters failed by the narrow margin of ten to elect a governor. The state law requires that the successful candidate receive a majority over the other candidates, and Charles M. Floyd, of Manchester, the Republican nominee, falls short just ten votes of receiving the needed majority. Unless the official result, which will not be compiled until next week, shows a change, the legislature will be called upon to name the next governor.

The figures are: Floyd (Rep.), 40,518; Jameson (Dem.), 37,534; Tetley (Pro.), 2,113; McFall (Soc.), 888; Churchill, 2.

Democrats Carry Nevada.

Reno, Nev., Nov. 9.—The indications are that the Democrats will carry the state by 2,500 votes. The Republicans will have a majority of one in the state senate. The assembly is still in doubt. Both sides claim it by one majority, with prospects of one Socialist being elected in Esmeralda county.
